Welcome to the Washington Post Print Edition. Flip through to read about the app and its features, or just dive right into the paper.

THE PRINT EDITION

Move back and forth between the Print and Digital Edition by using the tabs on the bottom of the screen. Check back every morning for the day's paper, published at 4:30 a.m. EST.

DOWNLOADED SECTIONS

You don't have to wait for the full paper to download before you can start reading. A section that's been fully downloaded has the green checkmark on the corner. You can read it offline, or on the train, if you'd like.

READY TO DOWNLOAD

Sometimes, a section might not be fully downloaded. In that case, it'll have the blue cloud icon on the corner. **Open it,** and the section will download in the background - **long press**, and you can download it to read later.
